Current Position

2016– **MRC Fellow & Lecturer (Assistant Professor)**, *Department of Applied Mathematics, University of Leeds.*

Employment History

2013–2016 **Postdoctoral Research Assistant**, *Department of Applied Mathematics, University of Leeds.*

2009–2013 **PhD Fellowship**, Spanish Ministry of Economy and Competitiveness.

Education

2009–2013 **PhD in Mathematics**, *Complutense University of Madrid, Spain. Qualification: Excellent cum Laude.*

2004–2009 **BSc in Mathematics**, *University of Alicante, Spain. Qualification:* 9.06/10 *with honours.*

Teaching (∼380 hours)

2018–2019 **Module Leader**, *MATH5315M Applied Statistics and Probability (40h), MSc in Financial Mathematics*, University of Leeds, UK.

2017–2018 **Module Leader**, *MATH5315M Applied Statistics and Probability (40h), MSc in Financial Mathematics*, University of Leeds, UK.

2016–2017 **Tutor**, *MATH1050 Calculus and Mathematical Analysis (10h), BSc Mathematics*, University of Leeds, UK.

2016–2017 **Module Leader**, *MATH5315M Applied Statistics and Probability (40h), MSc in Financial Mathematics*, University of Leeds, UK.

09/2016 **Module Leader**, *Stochastic Processes (45h), MSc Statistics*, University of Maputo, Mozambique.

09/2014 **Module Leader**, *Stochastic Processes (45h), MSc Statistics*, University of Maputo, Mozambique.

08/2013 **Module Leader**, *Stochastic Processes (45h), MSc Statistics*, University of El Salvador, El Salvador.

2011–2013 **Teaching Assistant**, *Probability Theory (112.5 hours), BSc in Mathematics (2^{nd} year)*, Complutense University of Madrid, Spain.

Postgraduate Supervision

2018– **Co-supervisor**, *PhD student Nathan Adam*, Department of Applied Mathematics, School of Mathematics, University of Leeds, United Kingdom.
EPSRC NPIF scholarship with PHE

2017– **Co-supervisor**, *PhD student Joshua Langwade*, Department of Applied Mathematics, School of Mathematics, University of Leeds, United Kingdom.
EPSRC CASE Student with DSTL

2017– **Co-supervisor**, *PhD student Polly-Anne Jeffrey*, Department of Applied Mathematics, School of Mathematics, University of Leeds, United Kingdom.
EPSRC CASE Student with AstraZeneca

2013–2018 **Co-supervisor**, *PhD student Maria Nowicka*, Department of Applied Mathematics, School of Mathematics, University of Leeds, United Kingdom.

2013–2018 **Co-supervisor**, *PhD student Luís de-la-Higuera*, Department of Applied Mathematics, School of Mathematics, University of Leeds, United Kingdom.

Research Funding

2016–2019 **Mathematical modelling of the emergence and spread of antibiotic resistant bacteria in healthcare settings: an stochastic approach**, *MR/N014855/1, Medical Research Council, United Kingdom.* ***Principal Investigator****. PI: Dr. López-García.*

2015–2018 **Stochastic models and statistical aspects in epidemics**, *MTM2014-58091, Ministry of Economy and Competitiveness, Spain.* ***Researcher****. PI: Dr. Gómez-Corral.*

2013–2016 **Vascular receptor-ligand programming: stochastic modelling of cellular fate**, *RPG-2012-772, The Leverhulme Trust, UK.* ***Postdoctoral Research Assistant****. PI: Prof. Lythe, Prof. Molina-París, Dr. Ponnambalam.*

2012–2014 **Stochastic modeling of epidemics and populations**, *MTM2011-23864, Ministry of Economy and Competitiveness, Spain.* ***Researcher****. PI: Prof. Artalejo, Dr. Gómez-Corral.*

2009–2011 **Stochastic models in biology and queueing theory: contributions of matrix-analytic methods and other algorithmic techniques**, *MTM2008-01121, Ministry of Science and Innovation, Spain.* ***PhD Fellow****. PI: Prof. Artalejo.*

Most recent Research Visits

07/2018 **Research visit - 1 week**, *School of Mathematical Sciences, University of Adelaide, Australia.*

02/2018 **Research visit - 2 weeks**, *Complutense University of Madrid, Madrid, Spain.*

05/2017 **Research visit - 2 weeks**, *Institute of Mathematical Sciences, Madrid, Spain.*

04/2017 **Research visit - 3 weeks**, *Indian Institute of Science, Bangalore, India.*

02/2017 **Research visit - 2 weeks**, *Medecins Sans Frontieres, Paris, France.*

07-08/2016 **Research visit - 1 month**, *Los Alamos National Laboratory, Los Alamos, USA.*

Referee Activities

I have acted as a reviewer for the following journals: *Journal of the Royal Society Interface*, *Frontiers in Immunology*, *PLoS ONE*, *SIAM Journal on Applied Mathematics*, *Scientific Reports*, *Transactions of Mathematics and its Applications*, *Mathematical Problems in Engineering*, *Mathematical Biosciences*, *Physica A: Statistical Mechanics and its Applications*, *Applied Mathematical Modelling*, *International Journal of Biomathematics*, *Stochastic Environmental Research and Risk Assessment*, *Discrete and Continuous Dynamical System Series-B*, *Kuwait Journal of Science*, *HSOA Journal of Infectious & Non Infectious Diseases*, *Sankhya B - The Indian Journal of Statistics*, *The International Journal of Computational Intelligence Systems*. I have also acted as referee for a grant proposal within the *"NILS Science and Sustainability"* European program.

Recent Administrative Activities

07/2019 **Conference Organizer:** ***Mathematical and Statistical Explorations in Disease Modelling and Public Health***, *International Centre for Theoretical Studies*, Bangalore, India.

02/2018 **Conference Organizer:** ***Probability in the North-East***, *University of Leeds.*

04/2017 **Conference Organizer:** ***Probability in the North-East***, *University of Leeds.*

2016- **Member of the Athena Swan/Equality & Inclusion Forum**, *School of Mathematics, University of Leeds.*

Most recent International Conferences & Meetings

2018 **ECMTB 2018, Lisbon, UK**, *Contributed talk.*

2018 **SMB 2018, Sydney, Australia**, *Contributed talk.*

2018 **UK Conference on Multiscale Biology, Nottingham, UK**, *Contributed talk.*

2018 **International Symposium on Health Analytics and Disease Modeling, New Delhi, India**, *Invited talk.*

2018 **Data analysis seminar series, Madrid, Spain**, *Invited seminar.*

2017 **Epidemics 6, Sitges, Spain**, *3 Posters Presented.*

2017 **SYSORM 2017, Spanish Society of Statistics and Operations Research, University of Granada, Spain**, *Invited talk.*

2017 **"XXADM Workshop", University of Alicante, Spain**, *Invited seminar.*

2017 **"IV Conference for Youth Researchers of the Spanish Mathematical Royal Society", University of Valencia, Spain**, *Invited talk.*

2017 **Department of Statistics and Operations Research, Complutense University of Madrid, Spain**, *Invited seminar.*

2017 **Institute of Mathematical Sciences, Madrid, Spain**, *Invited seminar.*

2017 **"Meeting on stochastic epidemic models with structured populations: development, analysis and inference", Nottingham, UK**, *Contributed talk.*

2017 **"Contagion on Networks" satellite of the NetSci 2017 meeting, Indianapolis, USA**, *Lightening talk.*

2017 **"Biology and Medicine Through Mathematics (BAMM!)" meeting, Richmond, USA**, *Contributed talk.*

2017 **National Centre for Biological Sciences, Bangalore, India**, *Invited seminar.*

2017 **"Mathematical Models of Infection, Inflammation and Immunity", Bangalore, India**, *Invited talk.*

Awards

09/2016 **Vicent Caselles Spanish National Award**, *BBVA Foundation & Spanish Royal Mathematical Society.*

Outreach

I have delivered a number of public engagement talks at different schools around Yorkshire, and at the University of Leeds *Sixth Form Conference 2017* and *2018*. I have also recently participated in the *Leeds Festival of Science 2018*, delivering talks at several schools in Leeds. I was also the leader of the activities carried out at the School of Mathematics (University of Leeds) during the *Be Curious 2016* open-day science festival. I recently obtained an MRC Public Engagement award (1200 GBP) in order to carry out a public engagement activity at the Thackray Medical Museum within the *MRC Festival 2018*.
For all of these public engagement activities, I have developed the series of video games *Hospital Infections* (available at https://matml.github.io/) which I use in order to explain to the general public how epidemic processes occur in real life, and how mathematical and computational tools can be used in order to analyse the spread of infectious diseases among individuals in a population.
